Informal Steps for Learning How To Investigate
Before you hear those words~ "I've got a Research Project due....." , you can comfortably think to yourself ~ "We got This..." or do you!?! 

Your child's curiosity has led her/him into more than a few paths of exploration & discovery~ just not necessarily in an organized, "procedural" way. Got any "Presentation" products to share?

SO, I thought I would create a few Topic Templates for your child to try on before.....

Better yet, ask your budding Scholar to "Brainstorm" a few things s/he could research & share with the alien from another planet who has just landed on the doorstep. It wants to know about the important parts of living in a Home environment...

Like what's that furry thing?
Outside/Inside? what's the difference?
Who's the Leader around here?
